### **Detailed Action**

1.

Claims 1-36 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The fourth limitation of claim 1, the fifth limitation of claim 13, and the fifth limitation of claim 25, refers to computing a third color space by comparing the second color space to the first color space to "determine which color points in the first color space require black ink". This language is confusing for the reason that the first limitation of the claim that the first color space had no black ink values. So how could one have black ink values from a color space that was averred to not have them?

Correction is required.

2.

Claims 1-36 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

The fifth – seventh limitations of claim 1 taken together are distinguishing limitations of the claim.

The sixth- eighth limitations of claim 13 taken together are distinguishing limitations of the claim.

The sixth – eighth limitation of claim 25 taken together are distinguishing limitations of the claim.
